

Dear Friends of SCATA,

Athletic trainers are highly qualified, multi-skilled, board certified, licensed health care professionals who render service or treatment, under the direction of or in collaboration with a physician, in accordance with their education, training and the state's statutes, rules and regulations. Athletic trainers are employed by industries such as Mercedes-Benz Vans LLC, Continental Tire, and many other industries in our state. Athletic trainers also work in military and performing arts settings. In these settings athletic trainers help keep employees healthy, offer onsite services, and less disruption of the work force.

South Carolina Athletic Trainers' Association (SCATA) is a member based organization with a mission of supporting the advancement, enhancement, and improvement of the athletic training profession in all phases and settings. With this mission and vision to optimize the role of athletic trainers as licensed healthcare providers in South Carolina; we support athletic trainers in all settings and employment opportunities.

With your support and consideration, we can continue the advancement of athletic trainers in South Carolina. As a Friend of SCATA, your donation would be used to support our advocacy efforts as highlighted below.

- ★ Advocate for athletic trainers as healthcare providers within the state law
- ★ Grassroots legislative efforts for athletic training profession
- ★ SC state legislative initiatives for athlete health and safety
- ★ Future initiatives
 - State funded athletic training positions at public high schools

The Friends of SCATA campaign goal is to raise \$10,000.00. We appreciate your monetary donation at the following levels. Donations will be received and processed by our treasurer. SCATA is a 501(C)(6) organization. For additional information please visit our website at <https://scata.org/Advocacy>
